## Aptitude Solutions Announces New Representative in Texas

**Maitland, Fla. – (January 2009)** – Lender Processing Services, Inc. (LPS), a leading provider of integrated technology and services to the mortgage industry, today announced that Del Holzer has joined its Aptitude Solutions division as the Texas and Oklahoma Account Manager, responsible for software, services, and sales to county Clerks and Registrars in those states.

Before joining Aptitude Solutions, Holzer had been working in the county government arena since 1984. Del most recently left Landata Technology, Inc., in San Antonio, Texas. Prior to that, he spent over twenty years working in the county government arena providing software solutions to county recorders across the country. Del was also appointed as Registrar of Deeds of Oklahoma County, Oklahoma and served in that capacity for over a year and a half. During his tenure, Del automated the recorder's office with a new imaging and indexing software package. He was responsible for the implementation and training of his twenty-six employees during the conversion to the automated system.

Upon his departure from Oklahoma County, Del returned to the private sector as a Sales Manager providing software solutions for county recorders and has been successful in the development and implementation of customized automation solutions for county clerks and recorders across the country.

Del's experience as Registrar of Deeds and in sales management roles provides him with a solid background to provide clerks with current methodologies for automating their offices with advanced software solutions and workflow procedures.

"We're pleased to have someone with such extensive knowledge of the functions in county government join our team," said Tim Nemethy, Vice President of Sales for Aptitude Solutions. "Del has a clear understanding of the needs of our client base and is well-equipped to deliver products that will increase efficiencies and help county governments better serve their constituencies."
