Aptitude Solutions Electronic Recording Certified by State of California ERDS

Maitland, Florida -- (August 8, 2008) -- Aptitude Solutions, a leading provider of innovative technology solutions for county government, including OnCore county recording and workflow management systems, tax deed filing systems, document management systems and court case management systems, today announced the official electronic recording certification of the OnCore Recording System by the State of California.

Pursuant to the California Code of Regulations, Title 11, Division 1, Chapter 18, Articles 1-9, Aptitude Solutions has received approval as a Vendor of ERDS *Electronic Recording Delivery System* Software Certification (#08V005).

The OnCore Recording System is installed across 11 states in over 50 counties nationwide. As a leader in the recording software industry, Aptitude Solutions has been actively involved in PRIA, the *Property Records Industry Association*, and actively accepts Model I, Model II, and Model III eRecordings.

President, Paul Miller comments, "Aptitude Solutions' OnCore Recording System has been well received in the State of California. After completing demonstrations in over a dozen California counties, the OnCore system is recognized as an innovative tool with the advanced feature set California Clerks and Recorders have been looking for."

Aptitude Solutions also meets compliance with AB1168 for automated redaction using OCR (Optical Character Recognition) technologies. aiREDACT is seamlessly integrated with the OnCore Recording System. aiREDACT captures redaction candidates as documents are recorded. This solution is designed for the protection of sensitive information within documents, such as redacting social security numbers and personal information from public view. Additional OCR technologies include aiINDEX, which automates the indexing process, thus increasing productivity and accessibility of the data.

OnCore's scan-first technology revolutionizes the recording workflow by digitizing the flow of documents and minimizing paper touch-points. With almost 600 flex-settings, OnCore allows each county to design their own dynamic workflow environment. Aptitude's customer base ranges in county populations from 3,000 in Ouray County, Colorado to over 1.7 million in Broward County, Florida. Broward is one of the largest counties in the country by recording volume and OnCore has allowed them to record volumes of over 8,000 documents a day and provide a secure database repository for over 62 million images.

Aptitude Solutions is headquartered in Maitland, Florida. For more information about Aptitude Solutions, call 866.278.4765 or visit www.aptitudesolutions.com.
