Arapahoe County, Colorado, Signs with Aptitude Solutions to Implement the OnCore Recording Platform For Greater Efficiency and Access

LPS' OnCore[®] Solution Effectively Supports High-Volume Property Recordings

JACKSONVILLE, Fla. (October 26, 2009) - Lender Processing Services, Inc. (LPS), a leading provider of integrated technology and services to the mortgage industry and government agencies, today announced that its Aptitude Solutions division has contracted for land records recording software in Colorado's Arapahoe County, providing a powerful software solution that further automates and streamlines land recording and indexing for the county Clerk and Recorder.

OnCore[®], Aptitude Solutions' industry-leading recording and indexing platform, enables county governments of all sizes to reduce internal paperwork and easily manage workflow by electronically moving document images through the recording process, rather than through traditional manual and paper-intensive processes. OnCore's features include electronic recording, automatic document queuing, electronic digital stamping, historic image back posting, full accounting functionality and more. The platform's flexibility and wide-ranging capabilities are easily scalable to meet the unique business needs of any size county government.

Arapahoe County is one of over a dozen counties in Colorado to implement Aptitude Solutions' OnCore platform for electronic land records indexing and eRecording. "After conducting an in-depth RFP process, the OnCore platform has proven to be the best system to meet our requirements," said Arapahoe County Clerk and Recorder Nancy Doty. "OnCore's increased automation and detailed audit checks, will allow us to offer immediate up-front scanning with instantaneous searching capabilities for the public to view recorded images and index data."

Paul Miller, president of LPS' Aptitude Solutions said, "We are committed to serving the needs of the Clerk and Recorders in the state of Colorado. We continue to invest in our

technology, creating systems that meet and exceed the ever changing demands placed on our customers.”
