## Bradford County, Florida Clerk of Court Live with Tribute Tax Deed System

**Maitland, Florida (September 29, 2008)** - Aptitude Solutions, a division of Fortune 500 company Lender Processing Services, Inc. (NYSE:LPS) and leading provider of innovative technology solutions for county government announce the successful implementation of their Tribute Tax Deed System in the Bradford County Clerk of Courts office. Bradford County, Florida is the 12th county to implement the tax deed system.

Previously using a primarily manual system of processing and tracking tax deeds, the move to Tribute represents a leap forward in the county's ability to effectively track and maintain the often time consuming task of completing the tax deed cycle. Utilizing features such as built-in imaging, auto publishing of files to the internet, forms generation and full payment tracking are just a few of the features that will allow the County to process these files effectively and efficiently.

The scanning technology of Tribute, the tax deed system from Fidelity National Information Services, Inc.'s Aptitude Solutions, greatly reduces internal paper flow by storing digital copies of the entire tax deed file. This allows county tax deed offices to eliminate tedious paper trails, increase efficiencies and create a better constituent experience. A step-by-step online process walks users through the creation of new tax deed files, while search engines expedite and simplify deed searches. Aptitude Solutions can even provide conversion services to streamline the transition from another system, making the move to Tribute trouble free.

Aptitude Solutions is dedicated to pioneering technology solutions that streamline the Official Records recording process and maximize efficiencies for county government.
