

Press Release

Brevard County, Florida Clerk of Court Live with Tribute Tax Deed System

Maitland, Florida (July 3, 2007) - Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FIS) and leading provider of innovative technology solutions for county government announce the successful implementation of their Tribute Tax Deed System in the Brevard County Clerk of Courts office. Brevard County, Florida is the 10th county to implement the tax deed system. Brevard County has one the highest tax deed volumes in the state of Florida.

The Tribute system is fully integrated with Aptitude's OnCore recording system which Brevard went live with in October of 2006. The integration allows seamless electronic recording and receipting of the files. Tribute also allows users to mass produce all of the necessary forms by auction date. This feature eliminates the need to access every file individually in order to print notices, sheriff's letters, etc. Additionally, the auto post to web feature allows for the entire file, including document images, to be posted to the internet with no user intervention. This feature alone eliminates a great deal of phone calls and foot traffic within the office.

Supervisor Laurie Rice states: " We handle an extremely large amount of tax deeds in this office. The automated forms generation and internet posting alone are going to save us a huge amount of time and effort."

According to Aptitude Solutions President, Paul Miller, " Brevard County processes an extremely large amount of tax deeds on an annual basis. The fact that these files are processed by one Tribute user is a true testament to the systems capabilities. We are excited that Brevard continues to show its belief in the Aptitude product line."

Aptitude Solutions is dedicated to pioneering technology solutions that streamline the Official Records recording process and maximize efficiencies for county government. Their customers' eagerness to implement those tools is a testament to their ability to deliver quality, leading edge solutions.
