

## ANNOUNCEMENT

### **Cherokee County Clerk of Superior Court Signs Contract with Aptitude Solutions for Court Case Management Software**

*LPS' ShowCase Software Offers Quicker, Easier Access to Court Information*

JACKSONVILLE, Fla. – (November 20, 2009) – Lender Processing Services, Inc. (LPS), a leading provider of integrated technology and services to the mortgage industry and government agencies, announced today that Georgia's Cherokee County Clerk of Superior Court has contracted with LPS Aptitude Solutions' for its ShowCase™ integrated case management software to improve the efficiency, productivity and workflow of Cherokee County courts and increase the public's ease of access to court information.

The County Clerk of Superior Courts for Cherokee County, who is a seasoned user of Aptitude's OnCore recording system, plans to install ShowCase to modernize the county's case management system, saving significant staff time and relieving departmental workload burdens. ShowCase's imaging feature will provide Cherokee County court departments with the ability to scan and save all documents electronically, including filings, pleadings, dispositions, citations, invoices and more. The ShowCase system fully integrates with the OnCore system to facilitate electronic document recording, saving significant time in processing throughput.

"Aptitude Solutions has delivered successful implementations in the Cherokee County Clerk's office beginning several years ago with the OnCore Real Estate system," said Patty Baker, Clerk of Superior Court. "We are now extending our contract for Aptitude Solutions' services to include their ShowCase Court Case Management System. The Clerk's office is looking forward to implementing ShowCase's workflow efficiencies and integrated system design."

The ShowCase solution will provide the public with the following capabilities:

- Case inquiry (including record security for juvenile, sealed and expunged cases) with image viewing and printing
- Ability to set civil traffic court dates online
- Ability to make online payments for civil traffic tickets
- Access to other select record sites

External criminal justice partners now benefit from these ShowCase capabilities:

- Integration with members of the Cherokee County court community, including the Sheriff's office, Public Defender's office, State Attorney's office and many other system partners
- Integration with the Georgia state reporting systems
- Case inquiry (including record security for juvenile, sealed and expunged cases, as well as configurable access to non-public information) with image viewing and printing
- Access to the clerk's court calendars and other reports

Because ShowCase's technology is scalable and comprehensive, it can support courthouse workloads of any size, even as case management needs change and increase over time. ShowCase also integrates with both local government partners and state-mandated reporting systems.

"Aptitude Solutions is thrilled to be extending our relationship with the Cherokee County Clerk's Office to include our ShowCase Court System," said Paul Miller, president, LPS' Aptitude Solutions division. "With our OnCore Real Estate System already in place, Cherokee County Courts will see significant efficiencies in throughput and workflow with electronic recording and other leading-edge features once the courts implement the ShowCase software."

### **About LPS Aptitude Solutions**
