

Press Release

Clarendon County, South Carolina Register of Deeds LIVE with Aptitude Solutions' OnCore

Maitland, Florida (September 22, 2008) - Aptitude Solutions, a leading provider of innovative technology solutions for county government, today announced the implementation in Clarendon County, South Carolina of OnCore's complete recording software technology. Aptitude Solutions is a leading provider of innovative technology solutions for county government, including OnCore county recording and workflow management systems, tax deed filing systems, document management systems and court case management systems.

Clarendon County Register of Deeds is the 52nd County in the United States to implement Aptitude Solutions' OnCore recording platform, a system used by county government for electronic land records indexing and eRecording.

Aptitude Solutions Executive Vice President, Paul S. Miller says, "Clarendon County has offered a great partnership with Aptitude Solutions and solidifies our growth in South Carolina. We look forward to maintaining a strong relationship and providing outstanding support for our friends in Clarendon County."

The OnCore System revolutionizes traditional recording methods, allowing recorders to automatically index directly from the scanned image by working through a queue system. With the ability to handle high volume recording, OnCore offers immediate turn-around for the customer's documents. The OnCore recording system's scan-first technology allows the County to image all documents coming into the county immediately, creating a digital work environment for reception number stamping, quality checks, indexing, and verification. The initial scan minimizes paper handling in additional areas by enabling employees to instantly scan miscellaneous paper such as cover letters, check payments, and other secure applications accessible by authorized staff.

Aptitude Solutions' policy of providing enhancements packaged in regular updates to all OnCore customers allows counties to benefit constantly from the newest ideas and quality features available.

Clarendon County Register of Deeds Nancy Clark comments, "We are very excited and impressed with OnCore, our new recording software package. This was a big upgrade for everyone in the Recording office and Aptitude Solutions' team made the transition as easy as possible. Our residents and customers can now benefit from the increased searching capabilities as well as the increased efficiency in the office."
