

## Announcement

### **Douglas County, Colorado Clerk and Recorder Implements Aptitude Solutions OnCore Recording and Indexing Platform**

*OnCore® Solution Chosen to Handle High-Volume Property eRecordings*

JACKSONVILLE, Fla. – (August 24, 2009) – Lender Processing Services, Inc. (LPS), a leading provider of integrated technology and services to the mortgage industry and government agencies, today announced that its Aptitude Solutions division has implemented the OnCore Recording System in the Douglas County, Colorado Clerk and Recorder’s office, to provide a powerful software solution to further automate and streamline land recording and indexing.

OnCore, Aptitude Solutions’ industry-leading recording and indexing platform, enabled the Douglas County Clerk and Recorder’s office to record almost 400 documents on their first day of production, including complete electronic recording. OnCore facilitates county governments of all sizes to reduce internal paperwork and easily manage workflow by digitizing documents, then routing and indexing document images electronically, rather than through traditional, paper-driven processes.

“Aptitude Solutions and their Project Management staff have gone above and beyond in order to fulfill our business requirements for the recording office,” said Douglas County Clerk and Recorder Jack Arrowsmith. “With the OnCore software package, we are meeting our goals for eRecording and have effectively increased automation and streamlined document delivery while maintaining search features for our public constituents.”

In addition to utilizing OnCore’s electronic recording, automatic document queuing, electronic digital stamping, full accounting functionality and robust search, Douglas County has also fully implemented OnCore’s automated indexing and automated redaction using OCR *Optical Character Recognition* technology. The auto-index technology enables the Clerk and Recorder’s office to automatically index key data elements on recorded documents. Auto-redact software identifies sensitive document information such as Social Security numbers, driver’s

license numbers, and bank account numbers for removal from the public record.

Paul Miller, president of LPS' Aptitude Solutions, stated, "Douglas County Colorado represents the twelfth Clerk and Recorder's office in the state of Colorado to implement the OnCore software suite. This exciting milestone coupled with live implementations now in California, Nevada, and Washington illustrates Aptitude's continued commitment to serve a growing customer base in the west."

### **About LPS Aptitude Solutions**

LPS Aptitude Solutions is a division of Lender Processing Services, Inc., a leading provider of integrated mortgage, real estate and government technology and services. LPS Aptitude Solutions is the leading provider of innovative technology solutions for county governments. Our end-to-end suite of software products automates workflow processes and increases efficiency. Software solutions include ShowCase's comprehensive court case management solution, OnCore's land records recording system, Tribute's tax deed filing system, automated indexing and redaction optical character recognition (OCR) tools, Web search engines, and more. Aptitude Solutions is the one source for all county government software automation and efficiency needs.
