## Escambia County, Florida Clerk of Court Live with Tribute Tax Deed System

**Maitland, Florida (December 4, 2007)** - Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FIS) and leading provider of innovative technology solutions for county government announced the successful implementation of their Tribute Tax Deed System in the Escambia County, Florida Clerk of Courts office. Escambia County is the 11th county to implement the tax deed system. Escambia County has one of the highest tax deed volumes in the state of Florida.

The Tribute system is fully integrated with Aptitude's OnCore recording system, which Escambia went live with several years ago. The integration allows seamless electronic recording and receipting of the files. Tribute also allows users to mass produce all of the necessary forms by auction date. This feature eliminates the need to access every file individually in order to print notices, sheriff's letters, etc. Additionally, the auto post to web feature allows for the entire file, including document images, to be posted to the internet with no user intervention. The web feature alone promotes tremendous public communication for constituents while eliminating a great deal of phone calls and foot traffic within the office.

*According to Aptitude Solutions President, Paul Miller, "With the ever increasing volume of tax deeds in the State of Florida, we are pleased to offer a solution that greatly reduces the time necessary to prepare a tax deed file for auction. Escambia Clerk of Courts has chosen Tribute as their preferred solution for preparing and processing tax deed files and will experience the benefits of system automation coupled with unprecedented customer service from Aptitude Solutions."*

Aptitude Solutions is dedicated to pioneering technology solutions that streamline the county government business process and maximize efficiencies for both staff and constituents. Aptitude Solutions customers' eagerness to implement these tools is a testament to their ability to deliver quality, leading edge solutions.
