

Press Release

Franklin County Washington Auditors' Office Live with Automated Indexing

Maitland, Florida -- (September 29, 2008) -- Aptitude Solutions, a division of Fortune 500 company Lender Processing Services, Inc. (NYSE:LPS) and leading provider of innovative technology solutions for county government, including OnCore county recording and workflow management systems, tax deed filing systems, document management systems and court case management systems, today announced the implementation of aiINDEX automated indexing technology at Franklin County, Washington Auditors' Office.

Franklin County Washington Auditors' office has taken advantage of the aiINDEX technology, which is fully integrated with the OnCore Recording System. OnCore utilizes up-front scan technology that completely digitizes the official record indexing and recording process, thus reducing internal paper flow and expediting the document recording process. These added solutions enhance automation in the overall recording process, thus increasing accuracy and accessibility of the data.

Auditor, Zona Lenhart comments on the recent implementation "aiINDEX represents our continuing commitment to provide our staff with leading edge technology. These systems can only make our office more efficient and effective."

As recording volumes grow, OnCore's aiINDEX will help Franklin County maintain their quality of service and quick recording turnaround as they move into the future.

President, Paul Miller explains, Franklin County is our first county in Washington to install aiINDEX. "We are very excited, that Franklin County continues to be committed to the latest technology. The efficiencies gained by Franklin County are evidence of the product's strength in the recording environment."
