## Hillsborough County, Florida Clerk of Court Live with Tribute Tax Deed System

**Maitland, Florida (August 30, 2007)** - Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FIS) and leading provider of innovative technology solutions for county government announce the successful implementation of their Tribute Tax Deed System in the Hillsborough County Clerk of Courts office. Hillsborough County, Florida is the 11th count to implement the tax deed system. Hillsborough County has one the highest tax deed volumes in the state of Florida.

Previously using a primarily manual system of processing and tracking tax deeds, the move to Tribute represents a leap forward in the county's ability to effectively track and maintain the often arduous task of completing the tax deed cycle. Utilizing features such as electronic recording, auto publishing files to the internet, forms generation and full payment tracking are just a few of the features that will allow the County to process these files effectively and efficiently.

*Tax Deed Supervisor, Jack Brooks comments "With Tribute we have taken a huge step forward. The efficiencies inherent in the system will allow us to process and publish these files much more effectively."*

The Tribute system is fully integrated with Aptitude's OnCore recording system which Hillsborough went live with in November of 2006. The integration allows seamless electronic recording and receipting of the files. All general ledger reports are generated out of the OnCore system for Tax Deeds however the workflow from a tax deed user's perspective is completely transparent, eliminating the need to toggle between the two systems. From a financial perspective, this eliminates the burden of tracking funds through different systems.

*According to Aptitude Solutions President, Paul Miller, "The fact that Hillsborough is our 11th county to go live the Tribute system represents our dedication to providing the Clerk of Courts office with the leading edge technology solutions necessary in today's fast paced market. Hillsborough has continually shown their support of our products and continues to be a valued partner and customer."*

Aptitude Solutions is dedicated to pioneering technology solutions that streamline the Official Records recording process and maximize efficiencies for county government.
