

## Press Release

### Johnston County, North Carolina Register of Deeds Goes Live with Aptitude Solutions' Automated Indexing Technology

**Casselberry, Florida (August 1, 2007)** - Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FIS) and leading provider of innovative technology solutions for county government, today announced the implementation of automated indexing technology at Johnston County, North Carolina Register of Deeds office, in conjunction with complete recording software.

Johnston County, North Carolina has taken advantage of the aiINDEX technology, which is fully integrated with the OnCore Recording System. OnCore utilizes up-front scan technology that completely digitizes the official record indexing and recording process, thus reducing internal paper flow and expediting the document recording process. These added solutions enhance automation in the overall real estate recording process, thus increasing accuracy and accessibility of the data.

*Johnston County Register of Deeds Craig Olive states, "This technology coupled seamlessly with the OnCore Recording solution has added even more efficiencies to our office than I could have imagined. Our staff is amazed with the results presented, and simply verifies the information, making it available for public searching even sooner than before."*

With aiINDEX added to their OnCore system, Johnston County can take advantage of Optical Character Recognition (OCR) technology, which will enable them to seamlessly scan documents and index the real estate deed information without manual intervention.

As recording volumes grow, OnCore's aiINDEX will help Johnston County maintain their quality of service and quick recording turnaround as they move into the future.

*Executive Vice President, Paul Miller explains, "We have watched Johnston County progress into being one of the leading technologically savvy counties in the US. It's very exciting and rewarding for Aptitude Solutions to know that we helped them reach their goals and bring the future of technology here today.*

*We pride ourselves in helping counties such as Johnston County who strive to have the latest and most up to date technology."*
