

APTITUDE SOLUTIONS
A LENDER PROCESSING SERVICES COMPANY

ANNOUNCEMENT

Johnston County, N.C. Register of Deeds uses Aptitude Solutions' OnCore® Recording Software for Electronic Recording of Survey Maps

LPS' OnCore Solution Effectively Supports High-Volume Electronic Recordings and Redaction

JACKSONVILLE, Fla. (February 11, 2010) - Lender Processing Services, Inc. (LPS), a leading provider of integrated technology and services to the mortgage industry and government agencies, today announced that its Aptitude Solutions division has implemented electronic recording of survey maps using the OnCore land records system in the Johnston County, North Carolina, Register of Deeds Office.

Register of Deeds Craig Olive initiated an effort in partnership with Aptitude Solutions to extend standard land record document electronic recording to also include survey maps. As a nationwide leader in this effort, Registrar Olive worked with Aptitude Solutions to establish a test database to set up the process for electronic survey map transmission. The electronic transaction includes sending images and data through a secure portal to the OnCore system. The package contains securely embedded electronic notarization and signatures. Surveyors worked hand-in-hand with Johnston County's Planning Department throughout the effort.

This innovative achievement speeds the entire process of survey map recording for all parties involved. From preparing the survey map through end receipting and recording, electronic processing revolutionizes the efficiency by automating the typical, heavily manual, paper-driven method. To reward his efforts for modernizing North Carolina Registers of Deeds offices and by using technology to expedite government recordkeeping, Craig Olive was presented with an Honorary Keeper of the Constitution Award by Secretary of State Elaine Marshall.

"It is an honor to receive this prestigious award from Secretary of State Elaine Marshall," Register of Deeds Olive said. "We must be visionaries to keep up with the pace of our ever-changing business world. I am honored to be a public servant for the people of Johnston County, and take great pride in maintaining our public records and providing easy accessibility to the citizens and business sector." LPS Aptitude Solutions President Paul Miller said, "The forward-thinking vision of Register of Deeds Craig Olive and all parties involved made this initiative become a reality. We appreciate the dedicated efforts Register of Deeds Olive exhibits in his working initiatives and commitment to his public constituents to constantly extend his services through the use of Aptitude Solutions' software technology."

Aptitude Solutions' sole focus on government software technology enables its staff to provide the very

best in conversion services, software implementation, project management and customer service. The ability to receive electronic recordings is a standard feature built into the base purchase of the OnCore Recording System. Aptitude Solutions' team of trained experts offers an exceptional level of commitment to service that cannot be beat by any competitor in the market today.

About LPS Aptitude Solutions

LPS Aptitude Solutions is a division of Lender Processing Services, Inc., a leading provider of integrated mortgage, real estate and government technology and services.
