Mesa County Colorado Clerk and Recorder Live with Automated Indexing

Maitland, Florida -- (August 6, 2007) -- Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FNF) and leading provider of innovative technology solutions for county government, including OnCore county recording and workflow management systems, tax deed filing systems, document management systems and court case management systems, today announced the implementation of aiINDEX automated indexing technology at Mesa County, Colorado Clerk and Recorders' office.

Mesa County has taken advantage of aiINDEX technology, which is fully integrated with the OnCore Recording System. OnCore utilizes up-front scan technology that completely digitizes the official record indexing and recording process, thus reducing internal paper flow and expediting the document recording process. These added solutions enhance automation in the overall recording process, thus increasing accuracy and accessibility of the data.

Clerk and Recorder Janice Rich, comments on the recent implementation, "aiINDEX represents our continuing commitment to provide our staff with leading edge technology. These systems can only make our office more efficient and effective. The staff simply verifies the information – making it available for public searching sooner than ever before."

With aiINDEX added to their OnCore system, Mesa County can take advantage of Optical Character Recognition (OCR) technology, which enables them to seamlessly scan documents and index the real estate deed information without manual intervention.

President, Paul Miller explains, "We are very excited, that Mesa County continues to be committed to the latest technology. As recording volumes grow, OnCore's aiINDEX will help Mesa County maintain their quality of service and immediate document turn around."
