

## Press Release

### Rockingham County, North Carolina Register of Deeds to implement Aptitude Solutions' OnCore Recording System

Casselberry, Florida (March 1, 2007) - Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FIS) and leading provider of innovative technology solutions for county government, today announced that Rockingham County North Carolina will implement Aptitude Solutions OnCore Recording system. In addition, Rockingham County also plans to take advantage of OnCore's aiIndex technology in the near future, which will enable the Register of Deeds office to seamlessly scan documents and then index the real estate deed information without manual intervention. "This will enhance our productivity and allow greater quality control," said Rebecca Cipriani, Rockingham County Register of Deeds.

With OnCore's unique workflow capabilities, Rockingham County will be able to offer immediate document turn-around for all walk-in customers. In addition, OnCore's online linking will allow the public instantaneous access to their recorded documents through the system's dynamic interaction to the web. The recording software's web interface enables up-to-the-minute searching and image viewing from home or office. Rockingham County will also incorporate the Marriage Kiosk feature into their web. The Marriage Kiosk will allow customers to enter their required information so the transaction can be processed even before the customer reaches the front counter for cashing.

Migrating to the new OnCore System assures that the Rockingham County Register of Deeds office employees and searchers will have the most up-to-date technology designed specifically for the digital realm. Aptitude Solutions' policy to provide enhancements packaged in regular updates to all OnCore customers allows everyone to benefit from new ideas and quality features.

*Rockingham County Register of Deeds Rebecca Cipriani states, "I am very excited to take technology to the next level for our citizens, with a product that will revolutionize the way we do business in Rockingham County. We also look forward to adding eRecording to the services we provide for our customers in the near future."*
