

Press Release

Pickens County South Carolina Register of Deeds LIVE with Aptitude Solutions' OnCore Recording System

Maitland, Florida (October 28, 2007) - Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FIS) today announced the implementation in Pickens County, South Carolina of OnCore's complete recording software technology. Pickens County becomes the 2nd County in the state of South Carolina to implement Aptitude Solutions' OnCore recording platform, a system used by county government for electronic land records indexing and eRecording. Aptitude Solutions is a leading provider of innovative technology solutions for county government, including OnCore county recording and workflow management systems, tax deed filing systems, document management systems and court case management systems

The OnCore System revolutionizes traditional recording methods, offering an immediate turnaround of customer documents. Before installing OnCore, Pickens County's highest recording volume within the past few months was 197 documents per day, but on the very first day of OnCore implementation, the county recorded 472 total documents.

Executive Vice President, Paul S. Miller says, "Pickens County has made great strides in leading the state with technology of the future. We look forward to satisfying all their recording needs as they head into a successful future."

The OnCore recording system's scan-first technology allows the County to image all documents coming into the county immediately, creating a digital work environment for reception number stamping, quality checks, indexing, and verification. The initial scan minimizes paper handling in additional areas by enabling employees to instantly scan miscellaneous paper such as cover letters, check payments, and other secure applications accessible by authorized staff.

Aptitude Solutions' policy of providing enhancements packaged in regular updates to all OnCore customers allows counties to benefit constantly from the newest ideas and quality features available.

Pickens County Register of Deeds Paul McGuffin comments, "Our staff is very pleased with the efficiencies OnCore offers us. Within the first day of having OnCore, our process time was drastically improved and we can see a measurable reduction in backlog. We are looking forward to a long lasting relationship with the team at Aptitude Solutions and are pleased to be such a progressive county that utilizes the latest technology to provide top notch services to our county."
