

Press Release

Pinellas County, Florida Clerk of Court Live with Automated Indexing and Redaction Systems

Maitland, Florida -- (January 1, 2008) -- Aptitude Solutions, a division of Fortune 500 company Fidelity National Information Services, Inc. (NYSE:FNF) and leading provider of innovative technology solutions for county government, including OnCore county recording and workflow management systems, tax deed filing systems, document management systems and court case management systems, today announced the implementation of Automated Indexing and Automated Redaction Technology at Pinellas County, Florida Clerk of Circuit Court Offices.

Pinellas County, Florida Clerk of Circuit Courts office has taken advantage of the aiINDEX technology, which is fully integrated with the OnCore Recording System. OnCore utilizes up-front scan technology that completely digitizes the official record indexing and recording process, thus reducing internal paper flow and expediting the document recording process. These added solutions enhance automation in the overall real estate recording process, thus increasing accuracy and accessibility of the data.

In addition to aiINDEX, Pinellas County has implemented aiREDACT automated redaction. aiREDACT allows for the automatic location and redaction of sensitive candidates. aiREDACT is compliant with State standards for the redaction of sensitive personal information such as social security numbers, bank account numbers, date of birth, driver's license numbers, and more.

With aiINDEX added to the Clerk's OnCore system, Pinellas County can take advantage of Optical Character Recognition (OCR) technology, which enables them to seamlessly scan documents and index official record document information without manual intervention.

As recording volumes grow, OnCore's aiINDEX will help Pinellas County maintain their quality of service and efficient recording turnaround as they move into the future.

President, Paul Miller explains, "The implementation of aiINDEX at the Pinellas County Clerk's Office will allow for additional workflow efficiencies by reducing the keystrokes and document review points. Pinellas County continues to show their dedication to improved efficiencies through technology with the Aptitude product line."
