

SimplifileSM and Aptitude Solutions Enter Into Strategic eRecording Alliance

Simplifile and Aptitude Solutions contract to integrate systems and cooperatively market resulting eRecording services to Aptitude-enabled counties and thousands of Simplifile "submitter" customers nationwide.

FLORIDA – October 29, 2007

Working to provide their mutual customers with industry-leading eRecording services, Simplifile and Florida-based Aptitude Solutions today announced that they have formed a strategic alliance for the purpose of integrating and cooperatively marketing Simplifile eRecording and Aptitude electronic filing and document recording systems.

The alliance calls for the two companies to continue the seamless integration of their respective eRecording and document recording systems, allowing documents electronically filed by Simplifile "submitter" customers such as title companies, law offices and banks to be received, reviewed, recorded and returned to those same submitters by counties running Aptitude's OnCore recording system. The accord also provides for Simplifile and Aptitude to cooperatively market the alliance and resulting services to their mutual customers, including Simplifile submitters and counties running OnCore.

"Simplifile is focused on building the premier eRecording network for the real estate industry. This focus is the very reason we have elected to partner with Aptitude Solutions," said Paul Clifford, President of Simplifile. "We have a longstanding, productive relationship with Aptitude Solutions, and are pleased to officially welcome them into our alliance partner program. Aptitude provides state-of-the-art county government software solutions, and we look forward to offering the many advantages of Simplifile eRecording Services—including increased productivity, security and profitability—to the submitter customers served by Aptitude-enabled recording jurisdictions."

More than a trend in land record document submission—eRecording is a government priority at federal, state and county levels across the country. eRecording is the process of submitting, receiving, and processing, via a secure Internet site, documents for recording that have traditionally been delivered to the county for recording by runner, express mail, or courier service. eRecording offers thousands of submitters nationwide filing documents into eRecording-enabled counties the ability to simplify, accelerate and enhance all aspects of the recording process.

Aptitude Solutions President Paul Miller announced "Aptitude Solutions is pleased to step even closer in our relationship with Simplifile. We have worked with Simplifile in many counties in several states across the country to bring our customers improved efficiency and productivity while dramatically lowering the county's operating expenses through the deployment of eRecording. Our customers who have deployed eRecording see immediate improvements to their overall recording process, save money, and are able to handle larger volumes of recordings without hiring additional staff. eRecording is must-have for any county recorder who is looking to bring their office into the 21st century. Our partnering approach with Simplifile makes it very easy for our customers."

Individuals and organizations that do business with Simplifile and Aptitude Solutions can contact the two companies directly for information on how they can benefit from this strategic alliance.

About Simplifile

Simplifile provides innovative, simple, and secure electronic recording services via the Internet for a wide variety of customers, including title companies, banks, attorneys, lien filers, and county and state

government jurisdictions. Our eRecording services accelerate document recording and simplify document workflow processes, significantly reducing costly overhead associated with traditional submission and recordation methods while improving client service levels dramatically.

Simplifile is focused on building the industry's de facto eRecording network. As such, we provide a streamlined yet scalable approach to electronic recording tailored to counties of all shapes and sizes. For more information on how Simplifile could benefit your county, visit www.simplifile.com or call 800.460.5657.
