Union County, Florida, Upgrades OnCore to Aptitude Solutions' New Acclaim System for Official Records Recording

LPS' OnCore Acclaim[®] Solution Effectively Supports High-Volume Property Recordings

JACKSONVILLE, Fla. (September 01, 2009) - Lender Processing Services, Inc. (LPS), a leading provider of integrated technology and services to the mortgage industry and government agencies, today announced that its Aptitude Solutions division has upgraded the OnCore official records recording software in Florida's Union County to the new Acclaim system, providing a powerful software solution that further automates and streamlines land recording and indexing for the County Clerk of the Circuit Court.

OnCore Acclaim[®] is Aptitude Solutions' new state-of-the-art recording and indexing platform, designed for county governments of all sizes to upgrade the land records experience for every user. The new generation recording product, Acclaim, went into production at Union County, Florida, on Friday, August 14, 2009. Acclaim is designed and developed using the latest .NET architecture and technologies, while preserving the functional toolset that has made its OnCore predecessor a national success.

“One of the reasons we purchased our Recording System from Aptitude was due to their progressive technology,” stated Union County, Florida, Clerk of the Circuit Court Regina Parish. “Aptitude's commitment to eGovernment is further exemplified through their newest recording software, OnCore Acclaim. Our staff and the public instantly embraced the new feature set and advanced user interface. The new Acclaim is amazing!”

The launch of Acclaim positions Aptitude for the next phase of growth by significantly advancing several dimensions of OnCore, including:

- OnCore Acclaim Maintainability and Extensibility – The development approach using C-Sharp, .NET and Windows Communication Foundation accommodates nimbleness, changes to market requirements, and stability for expanding features and functions

- OnCore Acclaim User Experience – The re-engineered user interface incorporates advanced industry standards, such as ribbon bars, break-away docking screens useful for dual monitor display, and workspace concepts for accessing and maintaining multiple functions simultaneously
- OnCore Acclaim Building on Product Strengths – Reliability of the current 600+ switch setting feature set in OnCore is fully maintained and improved upon in Acclaim

Paul Miller, president of LPS' Aptitude Solutions said, "The product team, led by Product Manager John Copella and Architect Mark Allen, has accomplished a significant achievement. With the successful launch of Acclaim at Union County, we are now ready to begin a deliberate and systematic rollout to our customer base."
